To whom it may concern

Mr. Gaspare Salvatore Vattiata (Casper) has been my patient for many years now and I well aware of the criminal abuse he suffered at the hands of the Toronto Police Service, Niagara Police, Toronto East and South Detention Centers, Niagara Detention Center, CAMH, Waypoint and St. Joseph's Psychiatric Facility. His rights as a Scientologist were violated when Mr. Vattiata was kidnapped and forcibly confined for the purpose to exort his work with Universal Sun Productions. Since 2016 he was subjected to corrosive substance exposure damage to his gastrointestinal tract and feet wiyhin the illegal forcible confineneey. His involuntary committal and my illegal forced admission have been monitored by the Church of Scientology and www.cchrint.org. He sustained further bodily harm by the illegal criminal acts of Psychiatry at CAMH, Waypoint and St. Joseph's Psychiatric Facility with their unjust forced drug treatments which was Criminal Negligence causing bodily harm. His lawyer Michael Cameron Moore will commence with criminal and civil prosecution as soon as possible.

Mr. Vattiata is required to repair his bodily damage with my treatment modality of specially harvested stem cells to regenerate his gastrointestinal tract and feet damage. This is the only treatment modality that will repair his bodily damage as other forms of Conventional Medicine would only be harmful.

Mr. Vattiata's only avenue for treatment is Stem Cell Therapy currently being prepared and soon to be administered. OPP Commissioner Thomas Carrique has his situation monitered with his lawyer Michael Cameron Moore along with myself.
